

Attention Airline Inspectors!

**This package contains Professional Artist
Pigments made with Vegetable oils**

**The Federal Aviation Administration (FAA) defines
Non Flammable Liquids as those with flashpoints higher than 140° F
These items have higher flashpoints, between 200° and 500°**

**The included Material Safety Data Sheets (MSDS) indicate
these are NON-HAZARDOUS**

**To confirm please see the highlighted sections, or contact
the US Dept of Transportation Pipeline and Hazardous
Materials Safety Administration (800) 467-4922**

PLEASE DO NOT DISCARD! THESE ARE VERY EXPENSIVE!!
